## Bio Products:-

**Agri-Gold** is an innovative Biostimulant derived from freshly fermented renewable agri-biomass. It contains Bioactive forms of Humic Substances which accelerate metabolic processes in plants.

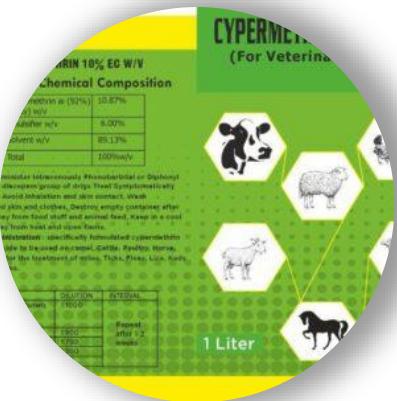

**BioChit** is a unique natural product, derived from marine Bio-active material chitin. BioChit stimulates the root system to produce new roots.

**Grow-1 Tab** is a plant growth nourishment tonic which contains growth promoter and bio - stimulant i.e. Auxin, Cytokinin, Gibberellins and other growth booster for crop development and yield.

## Agro Chemicals:-

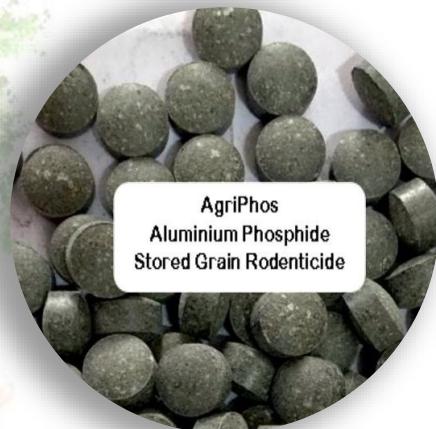

**Agri Vet Cyper (AVC)** is a useful for parasitic skin diseases. AVC work as Ecto-parasite.

**Target Animals:** Camel, cattle, horse, Goat, Poultry etc.

**Target Pest:** Mites, Ticks , Flea, Lice, screw worm.

**Agriphos** is used as a rodenticide, fumigant, and insecticide for stored cereal grains. It is used to kill small verminous mammals such as moles and rodents. The tablets or pellets, are known as “wheat pills”.

AgriPhos  
Aluminum Phosphide  
Stored Grain Rodenticide

**Herbicide - Commando** is used as Post-emergence control for annual and perennials broad-leaf weeds.

**Target crop:** Maize, wheat, rice, shorgum, grassland, and established turf.

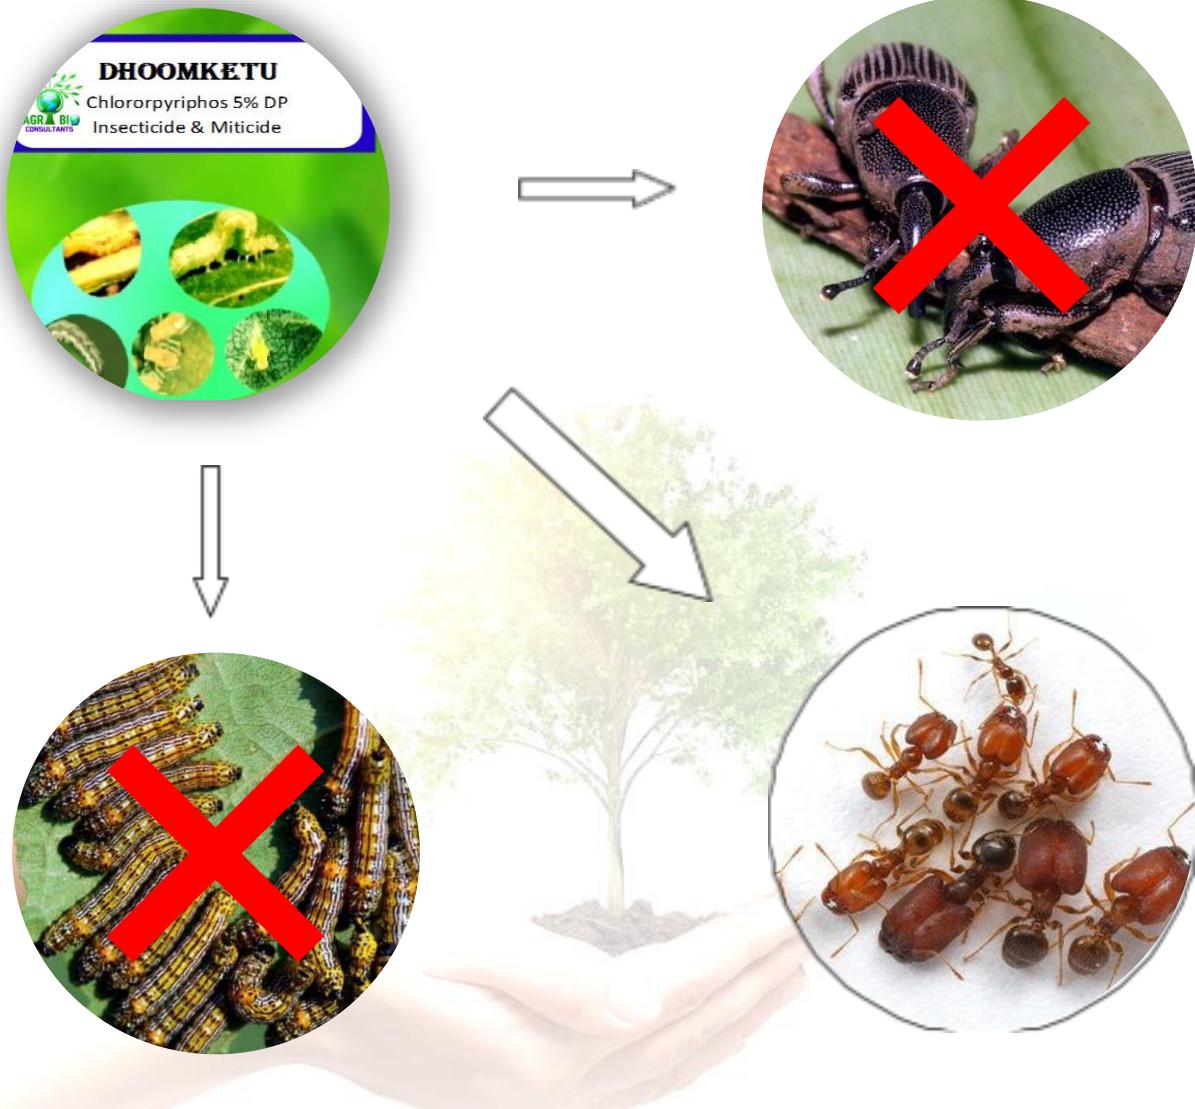

**Mixing/compatibility:** It can be a tank mix with other herbicides i.e. Glyphosate and Paraquat.

**Use alone:** In the case of pasture, it should be used alone.

# Agri Bio Consultants

**Dhoomketu** is an agricultural and domestic insecticide for control of a wide range of soil and foliar crop/pests and domestic insect pests including cutworms, grubs, caterpillars, beetles, banana weevils, attendant ants, root mealy bugs, soldier ants and worms.

**Compatibility:** Compatible with most insecticides, fungicides.

**Application:** Sprinkle DhoomKetu evenly at the infested site. Repeat application as necessary.
